Assemble guard kit as shown at left. Attach guard using the 5/8" bolt in the threaded hole located in the Tool Holder module (See Fig. #1). **NOTE:** For some tools, it may require that you cut the clear plastic Guard Plates to allow sufficient work access. Guard Plates can be cut with a bandsaw, jigsaw or a hack saw. Order extra Guard Plates below. Some long nose tools require longer guards. For these tools use a double guard as shown below in Fig. #2. Attach the second guard to the first guard as shown.
